

Fully outsource your certification management with rMony. With a complete onboarding system we can take care of the whole process, leaving you to concentrate on what's important for your business.

Key USPs

| Hands Off Compliance - Saving Time & Money

Decrease regulatory workload and reduce the cost of managing all certificates for all markets, while fulfilling all regulatory requirements. Sounds too good to be true?

With rMony you can rely on a fully automated compliance system to improve execution, quality, communication workflow and access.

No need to manually handle certifications or use in house systems which require development resources, substantially decreasing workload and allowing employees to focus on growing the business instead.

| Fully Automated System - Outsource Your Certification Management

rMony's automated system removes opportunity for human error, flags issues with new regulations and missing or outdated certificates, while granting confidence that requirements and any deadlines for suppliers or regulators will be met. rMony takes care of everything, from an initial uploading of certifications to the system, to distribution of the latest certifications and reporting on compliance.

Whats more, we can take care of the whole onboarding system, taking full control of the data migration from your old system to rMony - no tedious workflows for you or your team.

- | Automatically receive / distribute certificates to remain fully up to date with all regulations
- | Automated notices for new market regulations, highlighting any gaps with new regulations
- | Automated reminders when certificates are set to expire
- | Automated reminders for providing reports & documentation to regulators

| Stay On-Top of Market Regulations

Easily define your compliance within each market with specific regulation notes, allowing a full overview with easy reporting and handover.

Monthly Reports

Automated metrics & reports allow full hands off control with piece of mind - allowing you to continuously monitor compliance; showing your coverage, upcoming certification expiries & potential changes in regulations, so you can easily plan ahead for all your compliance matters.

Greater Visibility & New Market Oversight

Gain greater visibility of your overall compliance program and identifying overlapping regulations and any gaps or deficiencies in certification in new potential markets, allowing you to branch out into new markets quickly and efficiently.

Onboarding

As you know, time is money. That's why rMony offers onboarding in no time, taking full control over the transfer from your old compliance system to rMony, allowing you to focus on what's important for your business.

One Safe & Convenient Application

Safely store all your regulatory certificates and compliance notes all in one secure and easy to use application. Always available, mobile friendly, with daily backups. No need to use messy homemade systems that require development resources.
